RE : Welcome to the AHRI ACHC Certification Program for OEMs

Dear SURJEET SINGH BASSAN,

AHRI is pleased to welcome RAVI AIRCON PVT. LTD. to the Forced Circulation Air-Cooling and Air-Heating Coils (ACHC) Certification Program (latest edition of AHRI Standard 410) as an Original Equipment Manufacturer(OEM). The AHRI Certification Programs are accredited by the Standards Council of Canada(SCC) to ISO/ IEC Standard 17065 as a Type 4 certification system.

Your certified listings will appear on AHRI's Directory of Certified Product Performance (Directory) and you may claim products listed in the Directory as "AHRI Performance Certified" while maintaining compliance to the enclosed Certification Agreement. Product listings are typically live on AHRI's Directory of Certified Product Performance (Directory) within 24-48 hours. The publication of product listings on the Directory may be longer if you sell products in the United States but your products are manufactured elsewhere.

For direct application of certification marks to units, labels need to be obtained through AHRI. You have the option of obtaining an electronic version of the certification mark which can be incorporated into the unit nameplate or printed product literature. Instructions on the proper use of the electronic logos may be found in the AHRI Brand Usage Guide. To request labels, please submit an order here. AHRI has developed the AHRI Certification Marketing Toolkit to help you promote your designation. The toolkit is comprised of a variety of materials to be used at trade shows and in other marketing endeavors. AHRI also will include your logo in its own certification program marketing. Please send your high-resolution vector file to AleGendre@ahrinet.org at your earliest convenience.
